Step 3:

Then it will redirect you to a home page of your sendgrid account.

The image shows the Twilio SendGrid dashboard. On the left is a sidebar with a user profile 'sanjai.harikhe' and a list of navigation items: Dashboard, Email API, Marketing, Design Library, Stats, Activity, Subscriptions, and Settings. The main content area has a 'Welcome, Sanjai!' message with a sub-header 'To get up and running quickly, please follow the steps outlined below.' Below this is a blue banner that says 'Send your first emails with Twilio SendGrid'. The primary task is 'Create a sender identity', which includes explanatory text and two buttons: 'Create a Single Sender' (highlighted with a yellow box) and 'Authenticate a domain instead'. To the right, there's a section explaining that the sender identity is the 'from' email address, accompanied by a diagram of an email header showing 'Your Business' and 'from: hello@your-business.com'.

Step 4:

Finally, you have created your account and now you can access the sendgrid account.
